Gentlepeople,

I urge you to require that all irradiated foods (or food made with irradiated ingredients) be CLEARLY labeled as such. The radura symbol is needed, and the word "irradiated" must be maintained. I want to know what I'm eating, and I don't want to have to spend a lot of time searching the fine print on the label or keeping up with the lingo to do it.

Please tell me what you have done to improve the proposed regulations, I rely on "truth in labeling".

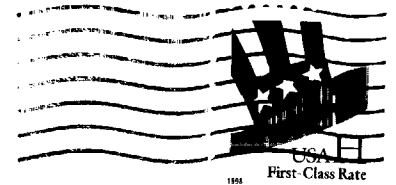

Sincerely,

  
Laura E. Gibbons
